Description :

Initial Notice – Section 5(d) Part R – high speed infrastructure –Supporting Statement

**Installation and connection of communication networks to new dwelling/s
For definitions of communications networks please refer to Approved document R
Volume 1, 2022 Edition Appendix A**

Is each dwelling to be equipped with a gigabit – ready physical infrastructure that extends from a network termination point to a distribution point?

Where a gigabit – ready physical infrastructure cannot be installed to each dwelling is a high-speed network connection to be installed.

Where a gigabit ready or high-speed network cannot be installed is an USO – Standard connection to be installed?

Please remember to save answers by saving the document; prior to sending to PWC BCS Ltd
